July 2010

Vol. 36 No. 1

TUESDAY BREAKFAST MEETING

We will not be having breakfast meetings during the summer. Our annual reorganizational meeting will be scheduled in July with guest speakers and new 3-ring binders will be distributed at that time.

The breakfast meetings will resume in the Fall after harvest.

Weekly updates will be available on our website under the “updates” tab from the home page.

FROM OUR OFFICE

- **Software Special for NCTC Students:** any NCTC student may purchase Microsoft Office Professional, version 2007 for \$85.00, this software contains “Excel”, which runs all of our spreadsheets; we highly recommend getting a copy. We have the necessary forms in our office.
- **2010 Cost of Production Worksheet:** Now that planting has been completed, this would be a good time to update your cost of production worksheet. I am sure crop acres have changed, plus some of your inputs should be known at this time. Give us a call and we can do the update quickly over the phone.
- **Rick Morgan will be out of the office** the last half of July. Please contact him before that if you need anything updated.

- **17th Annual Moorhead Farm Business Management Organizational Meeting- Monday, July 12th, 9:00 am**, at the Minnesota State Community and Technical College- Moorhead Campus, (Old Moorhead Tech) Room C118, located on 20th Street South and I-94. Please park in the West parking lot, C118 is located in the newest section of the college. We request **ALL** of you to attend, and if you cannot attend, please give us a call.

Agenda for meeting:

- **Frayne Olson, Ph.D.:** NDSU Extension Service Crops Marketing Specialist.
 - **Ron Dvergsten:** Dean of Management Programs, Northland College.
 - **Register** for new fiscal year.
 - Distribute the **2010 Farm Business Management 3-ring notebook.**
- **Red River On-Farm Yield Trial Plot Tour:** Monday, July 12th, 1 pm, Bryan Hest Farm: Plots are located on the North side of MN Hwy 200, 1 mile east of US Hwy 75.

The newest public and private spring wheat and barley varieties as well as the current nitrogen management research for spring wheat will be discussed. This research and plot tours are sponsored by the U of M Minnesota Extension with support from the Minnesota Wheat Research & Promotion Council. Feel free to bring plant samples with insect or disease problems.
